

St. Margaret Mary Catholic School

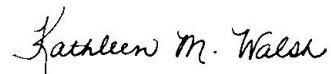

August 26, 2010

To Whom it May Concern:

AlternaScapes, Inc. provided and installed the Field Turf playground surface for our school in 2002. We have been very pleased with this product. The Field Turf has held up very well to the daily recess at our school. We had our first maintenance on the field this summer, and are very pleased with the results.

We have found this company to be professional and pleasant to deal with. We recommend this product and this company to anyone considering Field Turf for their playground surfaces.

Sincerely,

Kathleen M. Walsh
Principal
